

Makerspace Manager for the Student Project House

Start: As soon as possible

The Student Project House is an initiative at ETH to give all students access to prototyping equipment, strengthen interdisciplinary idea exchange and support student entrepreneurship. We are currently operating over 200 m² at ETH Hönggerberg including a Makerspace, Foyer and Project Workspace. In the future, there will be a Student Project House at both ETH locations: ETH Zentrum and ETH Hönggerberg. The activities in the Student Project House are developed in close collaboration with the students.

The Makerspace is run completely by a team of students who are interested in making and teaching their skills to others. We are always looking to increase the number of team members to improve our service.

What we expect you to bring

You are an ETH Student with some experience in making. We also welcome applicants with very little previous experience in making but with a strong interest to learn.

To be successful in this role you:

- are passionate about the idea of the Student Project House
- enjoy working in a workshop environment
- are a good team player and are open with new people
- like to help out others with your knowledge
- feel confident to work independently and take decisions on your own

Your tasks

You will be responsible for managing the Makerspace Open Hour (duration 4h) at least once every two weeks. During the Open Hour your tasks will be the following:

- Welcome new users in the Makerspace
- Give general and machine introductions
- Answer questions concerning the fabrication of prototypes
- Secure the safety for everyone in the Makerspace

What you get

The Makerspace team is a very young organization and the makerspace is in continuous development. In this role you can take an active part in shaping this unique new offer at ETH Zurich. You will be part of a great team, have unlimited access to the makerspace and get materials for your own projects for free.

For more information about this opening, please contact makerspace@sph.ethz.ch.
