Metal Bandsaw

To turn the machine on use the button on the top.

Secure your workpiece using the handle at the front.

If you need to do cuts with repeated sizes, use the stopper.
Metal Bandsaw

Check your cutting speed with the table on the machine.

Adjust the speed accordingly.

Make sure, that the blade guide is set as close as possible to your workpiece.
Metal Bandsaw

While cutting make sure to not get your hands close to the blade. Always have your hand as shown in the picture.

Important points

- Follow the safety rules
- Only for metal
